FOR IMMEDIATE RELEASE

Strategic BCP Renews its Commitment to The Philadelphia Foundation

Plymouth Meeting, PA – January 10, 2008. The Philadelphia Foundation is a public charity committed to improving the quality of life in the five-county southeastern Pennsylvania region of Philadelphia and its suburbs. The primary obligation is to support the efforts of donors who have created funds. Individuals, families, businesses and organizations establish permanent charitable funds designated for the region. The Philadelphia Foundation manages more than \$350 million in assets in more than 775 charitable funds, awarded through grants and scholarships.

ResilienceONE™, Strategic BCP's enterprise-class BCP software, is a fully-integrated Business Continuity Planning (BCP) system. This Software as a Service (SaaS) model provides real-time, online recovery in a powerful risk-management tool. This streamlined platform was built on the philosophy of autonomy, infusing each client with the means to effectively implement their plan during a crisis.

Frank Perlmutter, President of Strategic BCP, commented, "Many charities depend on the Philadelphia Foundation for their continued stability. The best way Strategic BCP can help all of these charities is to help ensure that stability through our expertise in Business Continuity Planning."

About Strategic BCP

Strategic BCP is a Business Continuity Planning company driven to empower clients by building cost-effective, compliant plans. Business Continuity Planning is a discipline dedicated to helping organizations recover business operations, restore IT infrastructure, and protect people in the event of an emergency.

Strategic BCP provides its core plan functionality through ResilienceONE™, a unique risk-based planning tool. ResilienceONE™ is a fully-integrated, Software as a Service (SaaS) BCP system. This streamlined platform was built on the philosophy of autonomy, giving each client the means to effectively implement their plan during a crisis.
